RILIWAN ADEKUNLE OLAOSEBIKAN

Cloud Security Analyst | AWS Certified

Lagos, Nigeria | realn7@gmail.com
linkedin.com/in/riliwan-olaosebikan-b86a08369 | github.com/twistedsol | twistedsol.github.io/Tracking-Tool

PROFESSIONAL SUMMARY

AWS-certified professional with 2+ years in presales and solutions support, now building cloud security skills in public, one small tool at a time. Hands-on with Python, Docker, Kubernetes and GitHub Actions, with 12 published security checking tools on GitHub. Supports enterprise GPS tracking, RFID and e-lock platforms day to day and works with vendors to resolve problems. Open to cloud security analyst roles and to tech roles related to oil and gas.

CERTIFICATIONS

- AWS Certified Solutions Architect – Associate (valid to Sep 2029)
- AWS Certified Cloud Practitioner (valid to Sep 2029)
- Certificate in Cybersecurity, ISC2 (2024)

Verify: credly.com/users/riliwan-olaosebikan

SKILLS

Cloud: AWS, IAM, Terraform

Security: secrets detection, policy and configuration hardening, security headers, vulnerability assessment

Build: Python, Git, GitHub Actions, Docker, Kubernetes

Support: solutions support, GPS, RFID and e-lock devices, firmware, vendor coordination, technical documentation

SECURITY PROJECTS (GITHUB.COM/TWISTEDSOL)

- Built 12 small, tested command-line tools that check configurations for risky settings: IAM policies, secrets in code, security headers, password policies, SSH configs, Dockerfiles, Docker Compose files, Kubernetes manifests and GitHub Actions workflows.
- Each tool has unit tests, sample files and automated checks on GitHub Actions. Also built a CloudTrail-style log detector and scanned deliberately vulnerable Terraform with Checkov, fixing findings in a copy.
- Published a bilingual (English and French) portfolio site documenting every lab and what was learned.

PROFESSIONAL EXPERIENCE

Presales Support | Tenece Holdings Limited *May 2024 – Present*

- Support the Trakzee fleet-tracking platform, including RFID and e-lock device deployment, firmware upgrades and GPS tracking hardware.
- Coordinate with vendors and OEM partners (including Uffizio) to resolve device and platform issues.
- Wrote a pilot proposal and built a demo to improve alert response and theft-complaint investigation for a fleet.
- Also support HR processes: onboarding, internship orientation, performance agreements and staff communications.

Team Lead, Tele Sales | Emtill Enterprises *2022 – 2023*

- Led a sales team, monitored KPIs, coached staff and handled escalated customer inquiries.

Accountant | Dialogue Institute *2021 – 2022*

- Performed credit analysis and portfolio monitoring, wrote risk assessment memos and supported audits.

Technical Support and Customer Service Specialist | Ismag Ventures *Jun 2021 – Nov 2021*

- Managed installations and set-ups and resolved hardware, software and network issues for customers.

IT Intern | Ola Precious Press *Sep 2014 – Jul 2017*

- Diagnosed and fixed faults on 50+ laptops and PCs and tested web applications for vulnerabilities.

EDUCATION

B.Sc. Computer Science (Second Class Lower) | University of Abuja, Nigeria *2017 – 2021*

NYSC discharged, 2023
